Woodland-Davis Termite & Pest Control will be performing pesticide application requirements at:
Beamer in Woodland CA.

This application will be in accordance with the laws and regulations of the State of California, and will be performed by a state certified applicator. Also in accordance with these laws and regulations we would like to furnish the following information:

CAUTION- PESTICIDES ARE TOXIC CHEMICALS.

Structural Pest Control Operators are licensed and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Food and Agriculture and the United States Environmental Protection Agency. Registration is granted when the state finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized.

If within 24 hours following application, you experience symptoms similar to common cold or illness comparable to the flu, or any other symptoms of overexposure which are not typical of you, contact your physician or poison control center, and your pest control operator immediately.
